

## Invest In The Future Of IWCA

IWCA Sustaining Partners fund the operational resources necessary to provide support to a global network of chapters in 32 countries. This support helps ensure that the IWCA can deliver a consistently impactful level of service to our chapter members and help them achieve sustainable livelihoods through programs and services that facilitate amplified market visibility, strategic partnership, and leadership development. Becoming a Sustaining Partner is an investment in empowerment that will provide meaningful change for thousands of women, families, communities, and businesses who operate throughout the global coffee supply chain.
